

THE 2018 MEDTECH LONDON REVIEW & DIRECTORY

SUPPORTED BY
MAYOR OF LONDON

The 2018 MedTech London Review and Directory

3rd edition 2018

Foreword

London is a global city and a powerhouse of scientific innovation and research. Its financial centre, pro-business fiscal environment, with incentives such as R&D tax credits and the Patent Box, and a strong presence of business incubators, supports investment and business growth. **London boasts one of the world's best clusters of medical research facilities, comprising internationally-renowned universities, hospitals and a huge and diverse NHS patient population.** All this provides a highly supportive environment for the commercialisation and application of health technology. Indeed, London accommodates some of the most innovative health technology companies with particular excellence in areas such as digital health.

London's MedTech sector is sizeable at **342 firms**. In 2015, the Greater London Authority (GLA) collaborated with the South East Health Technologies Alliance (SEHTA) and MedCity to identify who was in the cluster and what support they needed to grow.

Over the past three years, this collaboration – 'MedTech London' - has responded to the sector's growth needs through providing networking opportunities, support in accessing the market (for example, through Innovation Surgeries on how to access the NHS) and training workshops (such as on cost-benefit analysis). **MedTech London, funded primarily by the GLA, aims to help London realise its potential in health technology for the economic benefit of London, its companies and the health benefits of its population.** The foundations of this endeavour are the health technology companies, particularly the Small and Medium - sized Enterprises (SMEs – companies with fewer than 250 employees) and the need to enable greater collaboration across the sector to spur further innovation and bring new products and services to market.

This MedTech London Review and Directory starts to identify who is in the sector, where they are and what they do. The document also offers comment on particular sub-sectors which are emerging, and some thoughts for the future.

We encourage you to feed-back, correct and fill in any gaps. The Directory is accessible online at www.sehta.co.uk/MedTechlondondirectory and www.growthhub.london/medtechdirectory. With your input, it will be kept up to date on a regular basis, keeping pace with the growth and strengthening of this exciting sector in London. Please contact Clare Ansett with your suggestions (clare.ansett@sehta.co.uk).

Catherine Glossop, Greater London Authority

Dr David Parry, CEO, SEHTA

Phil Jackson, Project Director, MedCity

The Partnership

MAYOR OF LONDON

The Greater London Authority (GLA) consists of the elected Mayor of London and the 25 member London Assembly. It was established in 2000 as a strategic regional authority with powers over transport, economic development and fire and emergency planning. The GLA economic development agenda involves supporting policy and projects to help companies in London to flourish, grow and to attract new companies into the City.

www.london.gov.uk

The South East Health Technologies Alliance (SEHTA) is a not for profit company founded in 2006 which provides support to the health technology community. SEHTA is one of the largest networking organisations in the country with over 1300 members from 20 different countries and a health-related database in excess of 7000 contacts. SEHTA is also a member organisation of Medilink UK, representing South East England. Through its partnerships in a number of publicly and privately funded projects, SEHTA provides significant support to companies, universities and public and private health providers. It provides leveraged support to the London MedTech cluster.

www.sehta.co.uk

MedCity exists to promote and grow life sciences investment, entrepreneurship and industry in The Golden Triangle of Cambridge, London, Oxford and the Greater South East.

A collaboration between the Mayor of London and the five Academic Health Science Centres in the region, MedCity acts as a front door for industry, researchers and investors looking for partners, infrastructure and expertise. From drug discovery to devices, diagnostics and digital health, MedCity supports life sciences and healthcare companies, large and small, to do business in the region.

Lise Pape	Founder	Walk with Path
Colin Rees	Founder	Transforming Systems

Overview

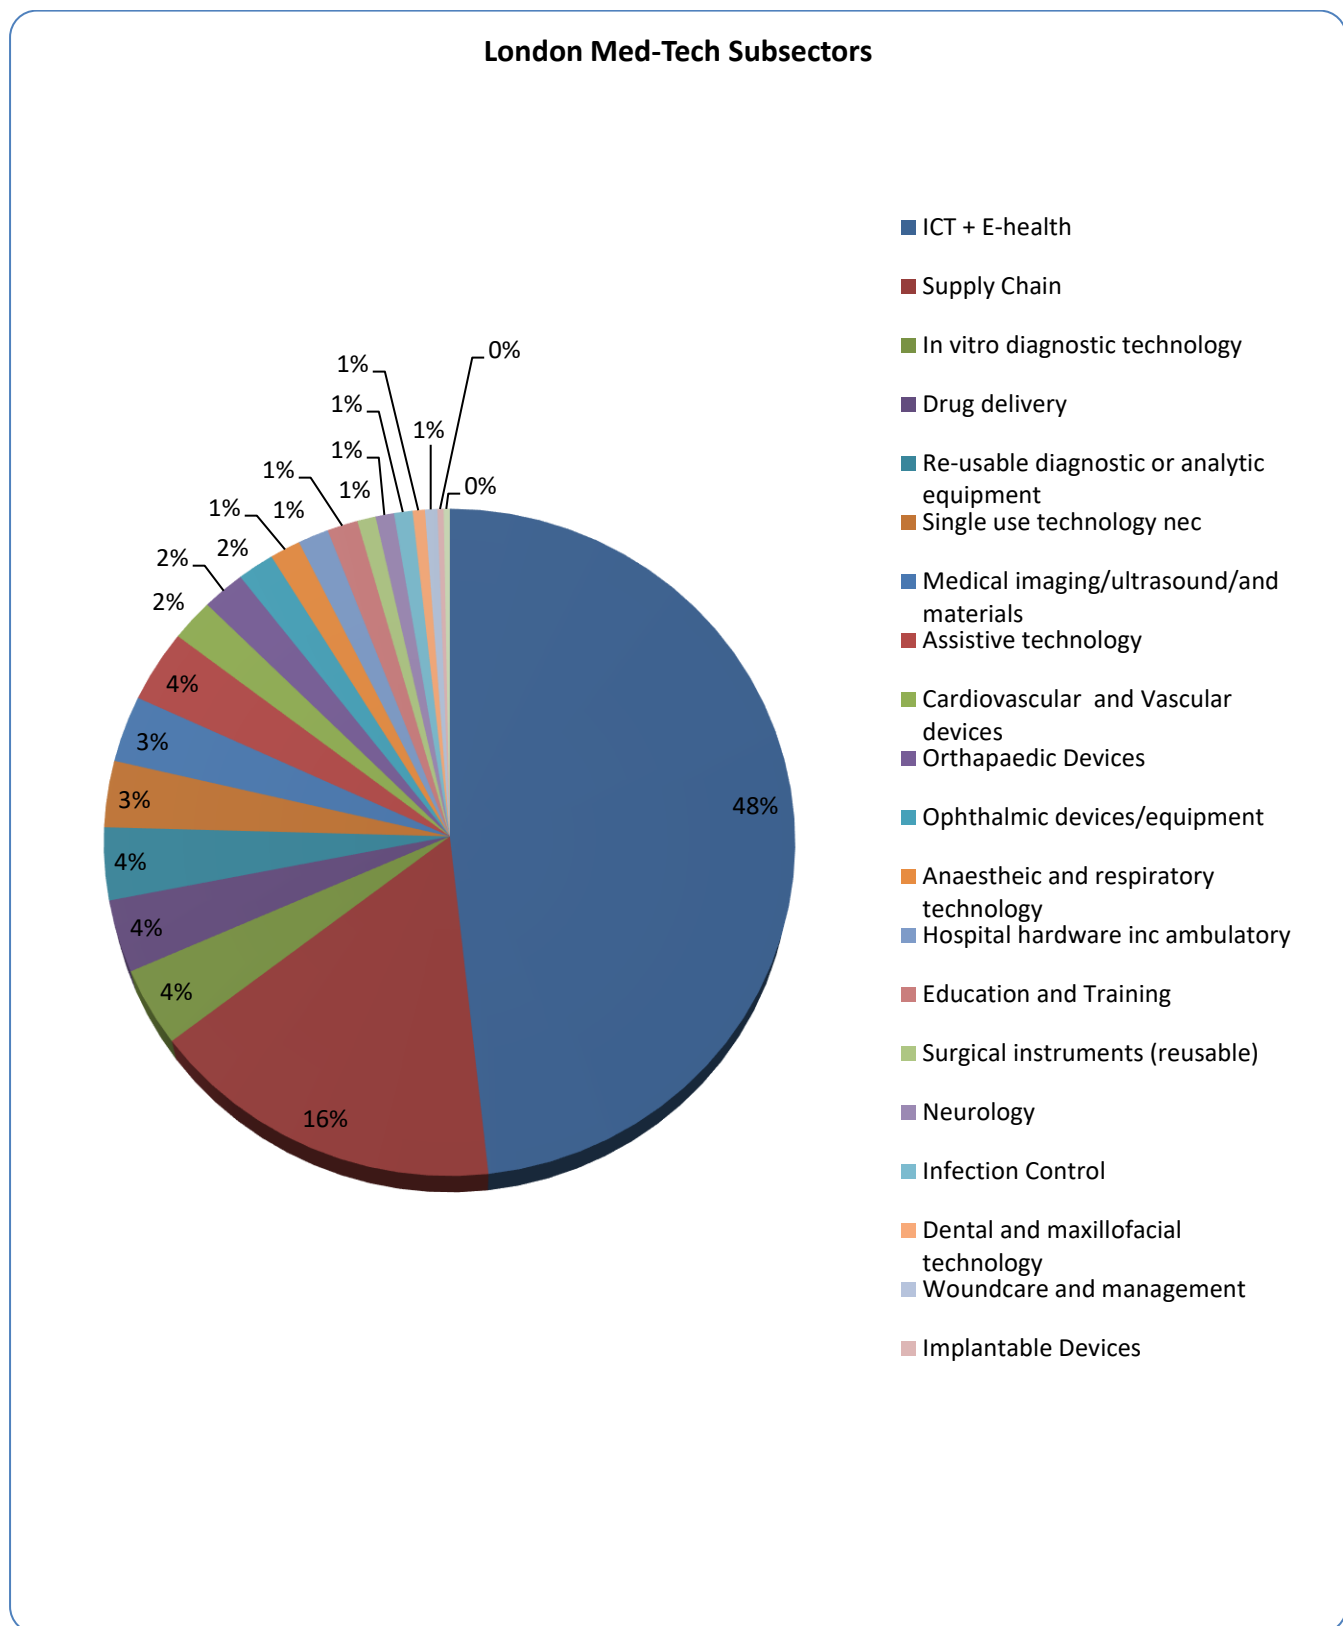

The MedTech London Directory contains **342** London-based MedTech companies, mostly SMEs, which have been classified according to 21 sub-sectors (see Figure 1 for distribution of London MedTech companies across each of the sub-sectors listed in Table 1). The sub-sector classification is based on that used in the annual publication 'Strength and Opportunity' from the Department of International Trade (DIT, formerly UKTI) and Office for Life Sciences (OLS). There is acceptance that attempts to classify companies in such a diverse sector, which may itself operate in several sub-sectors, is difficult and may on occasion be subjective.

48% of the London-based MedTech companies are in the digital health sector. The next most populous sub-sectors are; supply chain, in-vitro, drug delivery and re-usable diagnostic or analytic equipment.

Table 1: Subsector classification

Subsector	Count	Subsector	Count
ICT + E-health	165	Hospital Hardware inc Ambulatory	5
Supply Chain	56	Education and Training	5
In-vitro Diagnostic Technology	13	Anaesthetic and Respiratory Technology	5

Total		342	

Figure 1: London MedTech Subsectors

The Future

In this third edition of the MedTech London Review and Directory for 2018, like last year, despite the dangers in crystal-ball gazing, most commentators recognise three strategic drivers: **Population**, **Policy** and **Technology**.

Population: The ageing population is creating unprecedented levels of demand for health and care services, requiring that new approaches be adopted for delivering health and care as budgets continue to be squeezed. In England, the greatest opportunities for tackling this problem lie in the treatment and care of the 15 million people with long-term conditions such as diabetes, dementia, Chronic Obstructive Pulmonary Disease (COPD), hypertension and arthritis. Long-term conditions such as these consume around 70% of the total health and care budget in the UK and so are the focus of the many NHS initiatives and policies today.

Policy: At present, the UK spends around £120 billion per year on the NHS, which is just over 9% of GDP. This compares to over 17% of GDP expenditure in the USA. The NHS is, by international standards, an efficient and effective health system. However, future funding requirements fall well short of government provision in times of austerity and there are real challenges to meet efficiency targets; many NHS Trusts find themselves in deficit and several have had to restrict expenditure other than for essential requirements as the end of the financial year approaches. The result of this is that any offer to the health service has to be more efficient and cost effective than existing provision and competitors ("more for less") and ideally any cost / benefit analysis presented by a technology or service provider should show cash benefits within the current financial year. The policy push towards integration of health and social care continues with the creation of 44 place-based Sustainability and Transformation Partnerships (STPs) and a move towards new Accountable Care Systems (ACSs). Some Clinical Commissioning Groups (CCGs) and GP practices have merged creating larger bodies in a drive for efficiency. Changes in NHS structures always result in new opportunities for innovative fleet- of- foot companies. In addition, many believe that the Life Sciences Industrial Strategy and Sector Deal alongside the implementation of the Accelerated Access Review - which aims to speed up access to innovative drugs, devices and diagnostics for NHS patients - herald new opportunities for companies to access funding and NHS markets. Challenges around Brexit may also result in an increased public sector-funded drive to support UK companies to export.

Technology: Health and care sector businesses are not immune to the trap of attempting to push technology into markets that are not receptive because they do not meet needs or are unaffordable. However, there are some profound technological developments emerging which will result in new products, services and systems of considerable benefit to health and care providers and citizens, especially digital health (telehealth, wearables, big data, Artificial Intelligence, Blockchain, health informatics, sophisticated imaging, Apps, Augmented Reality and Virtual Reality). Digital health holds so much promise for health and care providers but companies still find it difficult to get adoption. Recently, tech giants such as Apple and Amazon have announced new initiatives in this area which could provide new impetus for publicly-funded healthcare systems to adopt more digital health technology. There are continuing new developments in personalised health or precision medicine based upon understanding of genomes, helping in the development and deployment of more effective pharmaceuticals, often alongside companion diagnostics. There are new advances in material science and engineering, working towards bespoke 3-D printed biocompatible synthetic and organic tissue replacements and progress in regenerative medicine creating organs and tissues regenerated both in the body and *in-vitro*. Finally, there are more robots assisting in routine surgery and moves to develop robotics for the care sector being driven primarily by technology developments in Japan.

With these three strategic drivers forming the backdrop of future health and social care market needs and trends, it's clear that the most competitive products and services will emerge at the interface of health and social care, engineering and digital technologies. Based on feedback from firms, we believe that one of the greatest benefits that MedTech London has to offer is networking and contacts. London has the potential to lead the world in the revolution in health and care, but it will need the networks and relationships among its businesses, universities, research organisations and funders to enable collaboration to co-create the new models of health and care we will need in the next 5-10 years.

The MedTech London Directory

Below is the directory of health technology companies. The companies have been categorised according to sub-sectors used by the National UK Life Sciences database from the Department of International Trade (DIT), (formerly UKTI) and Office for Life Sciences (OLS).

The directory is accessible online at www.sehta.co.uk/MedTechlondondirectory and www.growthhub.london/medtechdirectory and is updated throughout the year.

With your input, it will be kept up to date. We encourage you to feedback, correct any information and fill any gaps. If you have not been listed and would like to be, or have any other suggestions, please contact Clare Ansett (clare.ansett@sehta.co.uk).

This proactive member-driven approach to sourcing of information for the directory means that the Partnership cannot be responsible for any information contained within it.

New companies added to this third edition are highlighted in yellow.

Sub-Sectors

Anaesthetic and Respiratory Technology

Company Name	Company Description
<p>AIRSONETT UK Ltd</p> <p>St James House 13 Kensington Square London W8 5HD</p> <p>www.airsonett.com</p>	<p>Non-pharmaceutical treatment for allergic asthma, eczema and rhinitis that ensures that the patient sleeps in clean air.</p>
<p>Amiko Digital Health</p> <p>Salisbury House Unit 702, 31 Finsbury Circus London EC2M 5QQ</p> <p>www.amiko.io</p>	<p>Amiko's flagship product is Respiro, a connected platform comprising sensors for respiratory medications and AI powered digital health tools to assist healthcare professionals and empower patients to achieve better outcomes.</p>

<p>Excellentcare Medical Ltd</p> <p>The Oxygen 17 Seagull Lane London E16 1BH</p> <p>www.excellentcare.co.uk</p>	<p>Portfolios of medical and surgical products for respiratory care, anaesthesia and critical care applications.</p>
<p>Kind Consumer Ltd</p> <p>79 Clerkenwell Road London EC1R 5AR</p> <p>www.kindconsumer.com</p>	<p>Novel inhalation devices for significant health problems including tobacco harm reduction, tobacco dependence and respiratory drug delivery.</p>
<p>SLE Ltd</p> <p>Twin Bridges Business Park 232 Sesldon Road Croydon London CR2 6PL</p> <p>www.sle.co.uk</p>	<p>Neonatal ventilation products for life support, testing and neurophysiology.</p>

Assistive Technology

Company Name	Company Description
<p>Armourgel</p> <p>83 Camden Hill Towers Notting Hill Gate London W11 3QP</p> <p>www.armourgel.co.uk</p>	<p>New energy absorbing material, designed to alter the way we think about protecting the human body from impact and injury. Products include systems to prevent fractures in falls.</p>
<p>Cambridge Bio-Augmentation Systems</p> <p>Digital Catapult London NW1 2RA</p> <p>www.cbas.global</p>	<p>CBAS is using applied materials, machine learning, neuroscience, and the experience of our clinicians and surgeons to solve the complex problems of successfully integrating bionics into the human body.</p>
<p>Canaria</p> <p>2nd Floor, 57 Camden Road London NW1 9EU</p> <p>www.canaria.co.uk</p>	<p>A company providing a wireless vital signs monitor worn behind the ear that continuously monitors for signs of deterioration in a known condition. For example, predicting an epilepsy seizure.</p>

<p>Evolv Rehabilitation Technologies</p> <p>35 Kingsland Road London Accelerator London E2 8AA</p> <p>www.evolverehab.com</p>	<p>Evolv is a medical device manufacturer that specialises in developing affordable rehabilitation technologies aimed at neurorehabilitation, orthopaedic rehabilitation and geriatrics care</p>
<p>GyroGear</p> <p>Imperial Innovations Incubator Level 2, Bessemer Building Imperial College Road London SW7 2AZ</p> <p>www.gyrogear.co</p>	<p>Innovative glove that aims to restore quality of life and independence to those with tremors. Self-calibrating gyroscopes instantaneously and proportionally stabilise hand tremors using by spinning discs.</p>
<p>HomeTouch Care Ltd</p> <p>Unit 13, 40 Bowling Green Lane Clerkenwell London EC1R 0NE</p> <p>https://myhometouch.com/</p>	<p>Founded by an NHS dementia specialist, hometouch offers an unrivalled level of live-in care. We can pair your loved one with one of our trained and vetted hometouch carers, using our unique matching service to ensure they can live happily, safely and with dignity in their own home. Peace of mind for you and exceptional live-in care for your loved one.</p>
<p>Kemuri Ltd</p> <p>Elizabeth House 39 York Road 8th Floor London SE1 7NQ</p> <p>www.kemurisense.com</p>	<p>Smart power sockets measure motion, temperature, power usage and power supply to give an indication of wellbeing so that elderly people may safely remain living.</p>
<p>Neo-slip</p> <p>Kingston Business School Nest (1023) Kingston Hill Kingston Upon Thames KT2 7LB</p> <p>www.neo-slip.co.uk</p>	<p>Innovative yet practical solution that aids application of compression stockings and DVT socks.</p>
<p>Patients Pending Ltd</p> <p>145-157 St John Street London EC1V 4PY</p> <p>www.timesulin.com</p>	<p>Smart cap that fits onto insulin pen that times how long since the last insulin injection was taken.</p>

<p>Raiing Medical UK Ltd</p> <p>9a Burroughs Gardens London NW4 4AU</p> <p>www.raiing.com</p>	<p>Raiing MPCMS is a continuous multi-parameter central monitoring system with smart sensor interface and transceiver, which aims to better monitor patients' vital signs, improve patients' safety and early detect patient unrecognized deterioration.</p>
<p>Shadow Robot Company Ltd</p> <p>251 Liverpool Road London N1 1LX</p> <p>www.shadowrobot.com</p>	<p>State-of-the-art anthropomorphic robot hands and related systems.</p>
<p>The Future Care (UK) Ltd</p> <p>Aston House Cornwall Avenue London N3 1LF</p> <p>www.futurecareuk.com/care3</p>	<p>Real-time, wearable, health & wellbeing, monitoring device that can connect to any number of diagnostic, telecare, telehealth, independent-living and lifestyle peripheral devices and is supported by a medical triage monitoring service.</p>
<p>Your Alcove</p> <p>Longcroft House 2-8 Victoria Avenue London EC2M 4NS</p> <p>www.youralcove.com</p>	<p>IT-based personalised packages of assistive technology for people living independently at home.</p>

Cardiovascular and Vascular Devices

Company Name	Company Description
<p>Balatech Ltd</p> <p>11 Bowling Green Lane London EC1R 0BG</p> <p>www.balatech.co.uk</p>	<p>Early stage medical device company developing a novel, implantable valve to allow for precise regulation of blood flow across an AV fistula: safer, more effective vascular access for dialysis patients.</p>
<p>Cardiovascular Imaging Solutions Ltd</p> <p>53 Cavendish Road London SW12 0BL</p> <p>www.cmrtools.com</p>	<p>Software for the faster and more accurate visualisation and analysis of Cardiovascular Magnetic Resonance images.</p>

<p>Coremergy</p> <p>One Canada Square London E14 5AB</p> <p>www.coremergy.com</p>	<p>Medically-validated electrocardiogram on tablet device.</p>
<p>Epicardio Ltd</p> <p>18-20 Hill Rise Richmond London TW10 6UA</p> <p>www.epicardio.com</p>	<p>Epicardio is a medtech company developing simulation-based training and diagnostic software for Cardiology. We developed and commercialised the world's first online heart simulator - epicardio.com.</p>
<p>LiDCO Ltd</p> <p>16 Orsman Road London N1 5QJ</p> <p>www.lidco.com</p>	<p>LiDCO supplies minimally-invasive and non-invasive hemodynamic equipment to hospitals worldwide.</p>
<p>Oxford Heartbeat</p> <p>Health Foundry Canterbury House 1 Royal Street London SE1 7LL</p> <p>www.oxfordheartbeat.com</p>	<p>Predictive computations and AI to help clinicians accurately plan and rehearse stent placements inside blood vessels, enabling them to optimise the device selection.</p>
<p>Stent-Tek Ltd</p> <p>1 Square Rigger Row London SW11 3TZ</p> <p>www.stent-tek.com</p>	<p>Stent Tek is developing a novel catheter-based system that provides a better way for patients to receive haemodialysis (HD) for kidney failure.</p>

Dental and Maxillofacial Technology

Company Name	Company Description
<p>NJ Technologies</p> <p>25.5 Coda Studios Munster Road London SW6 6AW</p> <p>www.dentally.co</p>	<p>Cloud-based dental software for dental practice management.</p>
<p>Ranir Europe</p> <p>4th Floor, Charles House 108-110 Finchley Road London NW3 5JJ</p> <p>www.ranir.com</p>	<p>Oral and personal healthcare products, focussing on dental products and accessories.</p>

Drug Delivery

Company Name	Company Description
<p>BioMoti</p> <p>The QMB Innovation Centre 42 New Road London E1 2AX</p> <p>www.biomoti.com</p>	<p>BioMoti have developed a new class of immunotherapeutic drug-loaded particles that target and gain entry to the tumour vasculature and cancer cells.</p>
<p>BTG International Ltd</p> <p>5 Fleet Place London EC4M 7RD</p> <p>www.btgplc.com</p>	<p>A portfolio of Interventional Medicine products designed to advance the treatment of cancer, severe emphysema, severe blood clots, and varicose veins, plus a portfolio of Specialty Pharmaceuticals that offer antidotes to alleviate toxicity and treat rare conditions.</p>
<p>Diabetology</p> <p>The London BioScience Innovation Centre 2 Royal College Street London NW1 0TU</p> <p>www.diabetology.co.uk</p>	<p>Biopharmaceutical company employing a proprietary oral delivery system to administer known bioactives as well as novel compounds to transform the treatment outcomes for patients with diabetes.</p>

<p>LabGenius</p> <p>B201.3 Biscuit Factory 100 Drummond Street London SE16 4DG</p> <p>www.labgeni.us</p>	<p>Protein engineering company for application in biotherapeutics, advanced materials and personal care which underpins machine-learning, gene-synthesis and robotic-automation.</p>
<p>London Specialist Pharmacy</p> <p>The QMB Innovation Centre 42 New Road London E1 2AX</p> <p>www.specialist-pharmacy.com</p>	<p>The Specialist Pharmacy is the first compounding pharmacy in the UK, creates bespoke medicines designed to treat the symptoms of the menopause and other hormone-related conditions.</p>
<p>MedPar UK Ltd</p> <p>71-75 Shelton Street Covent Garden London WC2H 9JQ</p>	<p>MedPar UK Ltd is the UK subsidiary of MEDPAR Medical Partners GmbH of Germany and develops drug-delivery devices and pharmaceuticals.</p>
<p>Tecrea</p> <p>The London Bioscience Innovation Centre 2 Royal College Street London NW1 0NH</p> <p>www.tecrea.co.uk</p>	<p>Provision of world leading cell and tissue delivery technology for research and drug development applications.</p>
<p>Vectura Group plc</p> <p>46-48 Grosvenor Gardens London SW1W 0EB</p> <p>www.vectura.com</p>	<p>Integrated inhaled drug delivery platform (formulation, development and devices).</p>
<p>Yaqrit Ltd</p> <p>Interchange Triangle 3rd Floor, Triangle Building Stables Market Chalk Farm Road London NW1 8AB</p> <p>www.yaqrit.com</p>	<p>Yaqrit is a UK company specialising in interventions in liver disease based on 20 years of research and development by UCL.</p>

Education & Training

Company Name	Company Description
<p>EquallyPossible</p> <p>8 Batten Street London SW11 2TH</p> <p>www.equallypossible.com</p>	<p>Online tutorial videos on applying to a UK medical school.</p>
<p>Filisia</p> <p>Red Space London N1 6HQ</p> <p>www.filisia-interfaces.com</p>	<p>System that changes the way that early years learners and young people with SEN train their physical, cognitive and communication skills.</p>
<p>Touch Surgery</p> <p>Lower Ground Floor 17-18 Haywards Place London EC1R 0EQ</p> <p>www.touchsurgery.com</p>	<p>Interactive simulations of surgical procedures using cognitive mapping techniques, cutting edge AI and 3D gaming and rendering technology to enhance surgical training and advance surgical care in the operating room.</p>
<p>Written Medicine</p> <p>51 Start Street London W2 1QQ</p> <p>www.Writtenmedicine.com</p>	<p>Helping healthcare professionals including pharmacies communicate with patients by translation into over 12 languages.</p>

Hospital Hardware (inc ambulatory)

Company Name	Company Description
<p>Barrington Healthcare International Ltd</p> <p>BCM Box 5526 London WC1N 3XX</p> <p>www.thermocontour.com</p>	<p>Pressure relieving products using the latest visco-elastic materials, including acute and long-term care mattresses, trolley mattresses, wheelchair and chair cushions, and lower leg supports.</p>
<p>Chasmors Ltd</p> <p>1 Kings Terrace London NW1 0JP</p> <p>www.chasmors.co.uk/s2c1.html</p>	<p>Supplier and exporter of medical weighing and measuring equipment.</p>

<p>mOm Incubators</p> <p>1 Pancras Square London N1C 4AG</p> <p>www.momincubators.com</p>	<p>mOm is a collapsible cost effective infant incubator that is designed to provide a level of thermoregulation that meets the standards set for conventional incubators.</p>
---	---

ICT & E-Health

Company Name	Company Description
<p>Acadian</p> <p>27 Mortimer Street London W1T 3BL</p> <p>www.acadian.com</p>	<p>Data management and business intelligence software provider. Patient Data Navigator makes complete patient information accessible to authorized users on a desktop, tablet or smartphone and supports patient education.</p>
<p>AccuRX</p> <p>47 Woodland Rise London N10 3UN</p> <p>www accurx.com</p>	<p>We help practices to stream patients to the right clinician, increase their skill mix, improve patient communications, optimise appointment slots effectively and make more accurate prescribing decisions.</p>
<p>Advanced Health and Care Ltd</p> <p>230 City Road London E1V 2TT</p> <p>www.advancedcomputersoftware.com/ahc</p>	<p>Focused integrated software solutions for health and care organisations, including for budgeting and forecasting, care management, document management, electronic patient record, financial accounting, practice management, human resources, reporting and analytics and talent and training management.</p>
<p>Ally Labs</p> <p>International House 24 Holborn Viaduct London EC1A 2BN</p> <p>https://ally.is</p>	<p>Non-wearable sounds-based health monitor for vulnerable adults, designed to alert families and carers to changes in physical and mental wellbeing.</p>
<p>Antidote Technologies Ltd</p> <p>39 Earlham Street London WC2H 9LT</p> <p>https://antidote.me</p>	<p>Digital health company matching patients and trials.</p>

<p>Aparito</p> <p>25a Ritson Road London E8 1DE</p> <p>www.aparito.com</p>	<p>Wearable devices and disease-specific mobile apps to provide remote patient monitoring outside of the hospital environment in order to support better patient outcomes, improve understanding of disease, and clinical trial outcomes.</p>
<p>Appofol</p> <p>26 Whitbread Close London N17 0YB</p> <p>www.appofol.com</p>	<p>A platform to connect and network with doctors and employers in a variety of allied industries.</p>
<p>AssessPatients</p> <p>www.assesspatients.com</p>	<p>Secure web-based care assessment enabling care teams and the older community to collaborate on care needs by tracking the long-term needs and outcomes of older people, evaluating the effectiveness of care programmes, and supporting healthcare professionals working in community care settings.</p>
<p>Ayuda Heuristics</p> <p>32 Clifton Road Flat 1 London NW8 8JA</p> <p>www.ayudaheuristics.com</p>	<p>Mobile app that learns each individual's diabetes care heuristics with the aim of reducing the burden on individuals and sharing an untapped knowledge base across the diabetes ecosystem.</p>
<p>Avalon AI</p> <p>42 Arthur Henderson House Fulham Road London SW6 4JU</p> <p>www.avalonai.strikingly.com</p>	<p>We use Machine learning to automatically derive accurate brain features (e.g. the volume of the hippocampus) from brain scans and compare them to a normative population. We also provide handy 2D and 3D visualisations of brain features.</p>
<p>Baby2Body</p> <p>34 Dresingham Road London NW2 1SL</p> <p>www.baby2body.com</p>	<p>Baby2Body is an app that acts as a woman's daily guide to a healthy pregnancy and a happy motherhood. It provides digestible and actionable tips specific to her day of pregnancy or new motherhood and an update on her baby's growth.</p>

<p>Babylon</p> <p>6 Salem Road London W2 4BU</p> <p>www.babylonhealth.com</p>	<p>The Doctor App provides a GP online or phone appointment in minutes and at any time.</p>
<p>Best Doctors UK Ltd</p> <p>68 King William Street London EC4N 7DZ</p> <p>www.bestdoctors.com</p>	<p>We provide remote expert second medical opinions and health information.</p>
<p>Betterfy</p> <p>1 Matthews Yard London CR0 1FF</p> <p>www.betterfy.me</p>	<p>Betterfy is a messaging app which connects you to a dedicated psychologist who can help you towards leading a happier, healthier and more effective life.</p>
<p>Betterise Health Tech</p> <p>www.betterise-healthtech.com</p>	<p>Provider of multiple intelligent ehealth solutions that make use of artificial intelligence, including wellbeing coaching, personal health assistant, social community for expectant mothers, diabetes support and a digital health book.</p>
<p>BfB Labs</p> <p>71b St John Street London EC1M 4NJ</p> <p>www.bfb-labs.com</p>	<p>Mental health app</p>
<p>Big White Wall</p> <p>Evergreen House Grafton Place London NW1 2DX</p> <p>www.bigwhitewall.com</p>	<p>Big White Wall is an online mental health and wellbeing service offering self-help programmes, creative outlets and a community that cares.</p>
<p>BioBeats Ltd</p> <p>3rd Floor, 3 Fitzhardinge Street London W1H 6EF</p> <p>www.biobeats.com</p>	<p>BioBeats is a digital health and artificial intelligence business that creates corporate and personal wellness solutions.</p>

<p>Blockwise</p> <p>Office 7 35-37 Ludgate Hill London EC1M 5SY</p> <p>www.blockwise.org</p>	<p>Blockwise provides full-cycle service of implementing a blockchain-based application for your business. We will help you to understand the technology, to decide whether it is right for you, to choose the right technology stack, and to create your customized solution.</p>
<p>Bookamed</p> <p>160 Kemp House City Road London EC1V 2NX</p> <p>www.bookamed.com</p>	<p>Locum-sessions booking App for GPs, Nurses, HCA and General Practices.</p>
<p>CareBlox</p> <p>One Aldgate London EC3N 1RE</p> <p>www.theaccessgroup.com/solutions/care-management-solutions/residential-care</p>	<p>Software for the complete management of care homes, including care planning, rostering, payroll and finance.</p>
<p>Caros Connect</p> <p>862 Garrat Lane London SW17 0NB</p> <p>www.carosconnect.com</p>	<p>App developer platform that works with a wide range of health and lifestyle devices that can enrich and improve day-to-day activities for either yourself, or someone you care for.</p>
<p>Cerner Ltd</p> <p>6th Floor, The Point 37 North Wharf Road London W2 1AF</p> <p>www.cerner.com</p>	<p>Intelligent IT solutions for the health care industry, including population health management solutions and a suite of digital solutions that streamline clinical workflows and help providers care for patients while managing the business of care.</p>

Its private social network allows patients and healthcare providers to share medical and device information, and it provides data analytics for health organisations and smart cities.</p>
<p>YourMind</p> <p>Flat 3 35 Cheyne Place London SW3 4HL</p> <p>www.yourmind.co</p>	<p>Easy-to-understand, friendly and effective advice for looking after mental wellbeing, plus access to high quality psychologists and psychotherapists via videoconference.</p>
<p>Zesty</p> <p>82 St John Street London EC1M 4JN</p> <p>www.zesty.co.uk</p>	<p>A free service to find and book a healthcare professional that's right for you.</p>

Implantable Devices

Company Name	Company Description
<p>OxSyBio Ltd</p> <p>1st Floor 24 Cornhill London EC3V 3ND</p> <p>www.oxsybio.com</p>	<p>3D printing techniques to produce a range of tissue-like and functional tissues for medical research and clinical applications. Our vision is to ultimately produce tissues that can be used in the clinic for organ repair or replacement.</p>

Infection Control

Company Name	Company Description
<p>Dexo Technologies Ltd</p> <p>58 Weir Road London SW19 8UG</p> <p>www.dexotechnologies.com</p>	<p>Manufacturer of antimicrobial architecture for buildings.</p>
<p>MediSieve Ltd</p> <p>I-HUB 80 Wood Lane London W12 0BZ</p> <p>www.medisieve.com</p>	<p>MediSieve is a medical device SME working in the development of a magnetic filtration system to treat blood-borne diseases e.g. Malaria.</p>
<p>Nanoclave Technologies Ltd</p> <p>2nd Floor 6 Arlington Street London</p> <p>www.nanoclavetech.com</p>	<p>Decontamination technology that safely and effectively combats the growing threat of infections and contaminations caused by bacteria and micro-organisms across a broad range of industries and facilities.</p>

In-vitro diagnostic technology

Company Name	Company Description
<p>Abcodia Ltd</p> <p>The Network Building 97 Tottenham Court Road London W1T 4TP</p> <p>www.abcodia.com</p>	<p>Clinical stage company engaged in the commercial development of novel, scientifically validated tests for the early detection of cancer.</p> <p>The company's first product is for the early detection of ovarian cancer. Future developments will come in early detection technologies for lung, colorectal and pancreatic cancer.</p>

<p>Axxin</p> <p>45 King William Street London EC4R 9AN</p> <p>www.axxin.com</p>	<p>Developer of immunoassay and molecular instruments for diagnostic and biomedical applications.</p>
<p>BeamLine Diagnostics</p> <p>17a Crossfield Road London NW3 4NT</p> <p>www.beamlinediagnostics.com</p>	<p>Biopsy triaging system comprises BeamLine software, which carries the unique patent-pending diagnostic algorithm and user interface, combined with a commercially-available infrared spectrometer to identify healthy and benign tissue specimens with high accuracy within seconds.</p>
<p>BUGS Bioscience</p> <p>2 Royal College Street London NW1 0NH</p> <p>www.bugsbio.org</p>	<p>Molecular detection and identification of pathogens causing infectious diseases.</p>
<p>Champions Oncology (UK) Ltd</p> <p>London BioScience Innovation Centre 2 Royal College Street London NW1 0NH</p> <p>www.championsoncology.com</p>	<p>Person-specific tumour tissue is grafted into mice to help personalize the development and use of oncology drugs.</p>
<p>DNA Electronics Ltd</p> <p>Ugli Campus Block C 56 Wood Lane London W12 7SB</p> <p>www.dnae.co.uk</p>	<p>Analysis of DNA in samples directly using novel microchip system which can operate in hospital environments, including for the rapid detection of infection leading to sepsis.</p>
<p>Entia Ltd</p> <p>Office G07 – ScreenWorks 22 Highbury Grove London N5 2EF</p> <p>www.entia.co</p>	<p>Platform for capturing health data by providing patient-side blood counts without the need for a laboratory.</p>

<p>Euroimmun UK Ltd</p> <p>Ashville House 131-139 The Broadway Wimbledon SW19 1AJ</p> <p>www.euroimmun.co.uk</p>	<p>Diagnostic test kits and automated systems for Autoimmunity, Infectious Serology and Allergy.</p>
<p>Genesis Genetics</p> <p>London BioScience Innovation Centre 2 Royal College Street London NW1 0NH</p> <p>www.genesisgenetics.co.uk</p>	<p>Genesis Genetics is the pioneer of pre-implantation testing of embryos for inherited genetic abnormalities.</p>
<p>Mediwise</p> <p>The QMB Innovation Centre 42 New Road London E1 2AX</p> <p>www.mediwise.co.uk</p>	<p>Design and development of wireless devices for medical diagnostics e.g. GlucoWise non-invasive glucose monitor.</p>
<p>Microimmune Ltd</p> <p>10 Argyle Road London TW3 2BE</p> <p>www.microimmune.co.uk</p>	<p>Development and supply of microbiological reagents and provision of research and diagnostic activities.</p>
<p>Microsens Biotechnologies</p> <p>London BioScience Innovation Centre 2 Royal College Street London NW1 0NH</p> <p>www.microsens.co.uk</p>	<p>Automatable extraction technologies for the extraction of pathogens such as Neisseria, Chlamydia, C.diff, MRSA, TB etc. and/or pathogen nucleic acids, plus extraction kits for the commercial detection of protein aggregation diseases.</p>
<p>NALIA Systems Ltd</p> <p>London Bioscience Innovation Centre 2 Royal College Street London NW1 0NH</p> <p>www.naliasystems.com</p>	<p>Biomarker array technology with broad applications in research, biomarker validation and point-of-care diagnosis and monitoring.</p>

<p>Randox Laboratories Ltd (London)</p> <p>140 London Wall London EC2Y 5DN</p> <p>www.randox.com</p>	<p>Innovative diagnostic solutions for hospitals, clinical, research and molecular laboratories, food testing, forensic toxicology, life sciences, and veterinary laboratories, including Clinical Chemistry Analysers, Diagnostic Reagents, Biochip Array Technology and Molecular Testing.</p>
<p>Safeguard BioSystems</p> <p>Imperial Incubator Level 1, Bessemer Building London SW7 2AZ</p> <p>www.sgbio.com</p>	<p>Rapid, cost-effective, molecular diagnostic technologies and tests that can be effectively used for mass surveillance and selective screening for pathogens and other agents for agriculture, food safety, genetic screening and human health applications.</p>
<p>SuperNova Diagnostics Ltd (Jupiter Diagnostics)</p> <p>Hudson House 8 Tavistock Street London WC2E 7PP</p> <p>www.supernovadiagnostics.com</p>	<p>Diagnostics company that has developed AmpCrystal® - a diagnostic analytical platform for point of care human health testing.</p>

Medical Imaging/Ultrasound/and Materials

Company Name	Company Description
<p>Biotronics3D</p> <p>5 Greenwich View Place London E14 9NN</p> <p>www.3dnetmedical.com</p>	<p>Cloud-based imaging platform system providing managed services, visualisation, interoperability and collaboration for users.</p>
<p>BrainMiner</p> <p>97 Tottenham Court Road London W1T 4TP</p> <p>www.brainminer.co.uk</p>	<p>Automated, extensible, and personalised healthcare platform using artificial intelligence algorithms to assist with the clinical diagnosis of medical conditions using imaging and non-imaging data and integrate visually intuitive results into clinical workflow.</p>
<p>Cortirio</p> <p>L Block, Tower Bridge Business Complex 100 Clements Road London SE16 4DG</p> <p>www.cortirio.com</p>	<p>Point of care brain scanning with the resolution of MRI.</p>

<p>GE Healthcare Partners</p> <p>Berkeley Square House, 1st Floor London W1J 6BD</p> <p>www.gehealthcarefinnamore.com</p>	<p>At the heart of this global giant (GE) sits GE Healthcare Finnamore - the UK spearhead of GE's healthcare consultancy, GE Healthcare Partners. Over 85 health and social care specialists provide agile, independent and responsive consultancy, particularly in the fields of Life sciences, imaging, IT and diagnostics.</p>
<p>Image Analysis Ltd</p> <p>QABC Minster House 272-274 Vauxhall Bridge Road London SW1V 1BA</p> <p>www.ia-grp.com</p>	<p>Cloud based infrastructure and scientific expertise to support the optimal design and efficient management of clinical trials where imaging provides critical evidence of the novel compound safety and efficacy.</p>
<p>Innersight Labs</p> <p>7 Astbury House Lambeth Walk London SE11 6LZ</p> <p>www.innersightlabs.com</p>	<p>Use of standard-of-care medical scans, coupled with machine learning algorithms, to identify different tissue structures and abnormalities in the scan. Generation of a patient-specific 3D anatomical model to assist surgeon.</p>
<p>Invicro Ltd</p> <p>Burlington Danes Building Imperial College London Hammersmith Hospital Du Cane Road London W12 0NN</p> <p>www.invicro.com/</p>	<p>We offer a suite of services and software with applications ranging from tissue to human, from target identification to Phase IV trials across the entire electromagnetic spectrum of imaging techniques.</p>
<p>IXICO plc</p> <p>4th Floor, Griffin Court 15 Long Lane London EC1A 9PN</p> <p>www.ixico.com</p>	<p>Pioneering medical image management and analysis products for the global pharmaceutical industry to select patients for clinical trials and to assess the safety and efficacy of drugs in development.</p>
<p>Miznee</p> <p>71-75 Shelton Street London WC2H 9JQ</p> <p>www.miznee.com</p>	<p>Sophisticated soft tissue imaging using pre-existing and new x-ray (DR & AR) radiographs.</p>

<p>Speciality Scanners</p> <p>52 High Street Harrow London HA1 3LL</p> <p>https://specialityscanners.com</p>	<p>Speciality Scanners has developed a portfolio of proprietary products, including a novel Intra-Operative Magnetic Resonance (MR) Scanner and complimentary range of MR-compatible medical devices. Together the technologies have the capacity (a) to detect cancer at an early stage, and (b) ablate cancerous lesions minimally invasively, potentially, within one outpatient session under Real-time MRI guidance.</p>

Neurology

Company Name	Company Description
<p>BrainCures</p> <p>London BioScience Innovation Centre 2 Royal College Street London NW1 0NH</p> <p>www.braincures.com</p>	<p>Braincures is a research company focused on the development of diagnostics and treatments for mental and neurological disorders that include Alzheimer's disease, Parkinson's disease, depression, schizophrenia and others.</p>
<p>Cerestim</p> <p>Imperial College Incubator Level 1, Bessemer Building London SW7 2AZ</p> <p>www.cerestim.com</p>	<p>Brain stimulation therapies such as transcranial electrical stimulation combine pioneering technology, cutting-edge neuroscience and ethical business practice with the aim to both improve the health and well-being of all those affected by brain disorders and lower the costs of treatment for healthcare providers.</p>
<p>Neurocare Europe Ltd</p> <p>14 Dekker Road Dulwich London SE21 7DL</p> <p>www.neurocareeuropelimited.co.uk</p>	<p>Manufacturing and marketing company specialising in Neuromuscular Electronic Stimulation for Physiotherapists, Osteopaths and private individuals. Applications for the device include wound healing, general musculoskeletal rehabilitation and improving local circulation.</p>

Ophthalmic Devices/Equipment

Company Name	Company Description
<p>Central Vision Opticians</p> <p>327 Regents Park Road London N3 1DP</p> <p>www.centralvisionopticians.co.uk</p>	<p>Okimo is a startup that has developed a desktop-based app that uses eye movement data to assess Reading Performance.</p>

<p>Give Vision</p> <p>Piccadilly Circus 20 Air Street London W1B 5AN</p> <p>www.givevision.net</p>	<p>SightPlus is a wearable headset that can be used to magnify close-up or far-away objects, change the contrast or apply custom filters to anything you are looking at. It is hands-free, portable and easy-to-use for a large variety of tasks.</p>
<p>IRISS Medical Technologies</p> <p>Acre House 11-15 William Road London NW1 0NH</p> <p>www.irissmedical.com</p>	<p>Diagnostic-assistance devices in ophthalmic and eye data analytics, aimed at ophthalmologists and optometrists as well as paediatricians and family practice doctors.</p>
<p>Moorfields Biomedical Research</p> <p>162 City Road London EC1V 2PD</p> <p>www.moorfields.nhs.uk/content/nihr-moorfields-biomedical-research-centre</p>	<p>The National Institute for Health Research (NIHR) Biomedical Research Centre at Moorfields Eye Hospital NHS Foundation Trust and UCL Institute of Ophthalmology aims to be the development site of choice for rapid-track delivery of new diagnostic methods and therapies.</p>
<p>Open Eyes</p> <p>Moorfields Hospital 162 City Road London EC1V 2PD</p> <p>www.openeyes.org.uk</p>	<p>Electronic Medical Record application for ophthalmology, which enables clinicians to access information they need about their patients in one place.</p>
<p>PEEK Vision</p> <p>1 Fore Street London EC2Y 9DT</p> <p>www.peekvision.org</p>	<p>Smartphone based visual assessment tools with a focus on solving problems experienced in the most underserved areas of the world.</p>

Orthopaedic Devices

Company Name	Company Description
<p>Andiamo</p> <p>32 – 38 Scrutton Street London EC2A 4RQ</p> <p>www.andiamo.io</p>	<p>Andiamo develops 3D printed orthotics for patients who suffer from cerebral palsy.</p>

<p>Apos Medical UK Ltd</p> <p>344-254 Grays Inn Road London WC1X 8BP</p> <p>www.apostherapy.co.uk</p>	<p>Personalised, non-surgical and drug-free programme for knee and back pain based on a foot-worn biomechanical device which is individually-calibrated by specially-trained chartered physiotherapists.</p>
<p>Physicool</p> <p>12 Milner Street Chelsea London SW3 2PU</p> <p>www.physicool.co.uk</p>	<p>Medically formulated Coolant that reduces swelling, inflammation and pain and speeds up the recovery process for use in hospitals, physiotherapy practices, sport arenas and at home.</p>
<p>Orteq Ltd</p> <p>26 Grosvenor Street London W1K 4QW</p> <p>www.orteq.com</p>	<p>Repair solutions for orthopaedics and sports injuries using a proprietary polymer platform, including implants to support in-growth and regeneration of new tissue in the knee meniscus.</p>
<p>Spinevision Ltd</p> <p>Hamilton House Mabledon Place Bloomsbury London WC1H 9BB</p> <p>www.spinevision.net</p>	<p>Implants and instrumentation for spinal treatment, including a dynamic stabilization system which can be used in a percutaneous approach.</p>
<p>Stanmore Implants</p> <p>210 Centennial Avenue Centennial Park Elstree WD6 3SJ</p> <p>www.stanmoreimplants.com</p>	<p>Innovative solutions for orthopaedic oncology and complex primary and revision cases in the upper limb, lower limb and pelvis.</p>
<p>Walk With Path</p> <p>Somerset House London WC2R 1LA</p> <p>www.walkwithpath.com</p>	<p>Shoe insoles and attachments for injury prevention, improved mobility and therapeutic intervention.</p>

Radiotherapy Equipment

Company Name	Company Description
<p>Vision RT</p> <p>Dove House Arcadia House London N3 2JU</p> <p>www.visionrt.com</p>	<p>Superior solutions for the radiotherapy market that detect motion in order to optimise radiation delivery and improve imaging.</p>

Re-usable Diagnostic or Analytic Equipment

Company Name	Company Description
<p>Analox Ltd</p> <p>Unit 22, Acton Park Estate The Vale London W3 7QE</p> <p>www.analox.com</p>	<p>Rapid enzymatic analysis for glucose, sucrose, lactose, glycerol, ethanol and methanol in food, pharmaceuticals, cosmetics, beverages and agricultural products.</p>
<p>Applied Nanodetectors</p> <p>Innova Science Park 1 Electric Avenue Elstree EN3 7XU</p> <p>www.applied-nanodetectors.com</p>	<p>Nanosensor based solutions that can be configured to detect multiple species for environmental, healthcare and medical applications, including breath analysis.</p>
<p>Bioline Reagent Ltd</p> <p>Unit 16, The Edge Business Centre Humber Road London NW2 6EW</p> <p>www.bioline.com</p>	<p>A portfolio of more than 300 reagents and kits for molecular biology, cell analysis and nucleic acid and protein separation and purification.</p>
<p>Century Genomics</p> <p>71 Roundwood Court 3 Meath Crescent London E2 0QL</p> <p>www.advisor.clinic</p>	<p>Novel prenatal screening methods based on advanced DNA sequencing technologies provide more accurate and extensive information about trisomies, sex chromosomes, and microdeletions.</p>

<p>Corticare</p> <p>30 Longley Road London SW17 9LL</p> <p>www.corticare.co.uk</p>	<p>Medical device firm providing rapid and accurate hormonal testing.</p>
<p>deltaDOT Ltd</p> <p>London BioScience Innovation Centre 2 Royal College Street London NW1 0NH</p> <p>www.deltadot.com</p>	<p>Patented methods and instrumentation in High Performance Capillary Electrophoresis, for application in Life Sciences research, drug testing, diagnostics and bio-pharmaceutical manufacturing.</p>
<p>Diagnostics.ai (formerly Azure PCR)</p> <p>59a Brent Street London NW4 2EA</p> <p>www.diagnostics.ai</p>	<p>Develops and provides Artificial Intelligence and machine learning to improve accuracy and efficiency of diagnostic tests (e.g. PCR-based tests).</p>
<p>Medical Wireless Sensing Ltd</p> <p>42 New Road London E1 2AX</p> <p>www.mediwise.co.uk</p>	<p>Wireless devices in the fields of medical diagnostics and monitoring based on metamaterials, i.e. manmade nanocomposite materials that enable non-invasive precision diagnostics. Solutions are currently targeted at diabetes, cardiovascular disease and cancer.</p>
<p>Microtest DX</p> <p>Level 1, Block C 56 Wood Lane London W12 7SB</p> <p>www.microtestdx.com</p>	<p>Automated multiplex in-vitro diagnostic tests in the areas of Allergy, Autoimmune, Influenza and Infectious Disease.</p>
<p>Orphidia</p> <p>64 Rochester Place London NW1 9JX</p> <p>www.orphidia.com</p>	<p>Orphidia transforms medical testing enabling large sets of human biomarkers in blood and other biofluids to be monitored simultaneously using the Orphidia Portable Lab Analyzer (PLA).</p>

<p>Psimonix</p> <p>25 Locket Road Harrow Middx HA3 7ND</p> <p>www.psimonix.com</p>	<p>Psimonix is an EEG Technology company that develops algorithms to measure substance levels in the body non-invasively and at real-time from the EEG data.</p>
<p>Qardio</p> <p>14-16 Dowgate Hill London EC4R 2SU</p> <p>www.getqardio.com</p>	<p>Health-monitoring devices including a smart blood pressure monitor, a wireless smart scale, and medical-grade ECG, with consumer and medical dashboard views.</p>

Single-use Technology

Company Name	Company Description
<p>BM Polyco Ltd</p> <p>Crown Road Ely London EN1 1TX</p> <p>www.polyco.co.uk</p>	<p>Supplier of cotton wool, impregnated wipes, disposable gloves and a range of first aid products.</p>
<p>Braidlock Ltd</p> <p>81 Southwark Street London SE1 0HX</p> <p>www.braidlock.com</p>	<p>Adjustable line-fixation device to secure catheter and tubing technologies in a wide range of therapy areas.</p>
<p>Calla Lily Personal Care Ltd</p> <p>8 Lincoln's Inn Fields London WC2A 3BP</p> <p>www.callaly.com</p>	<p>Innovative tampons with a mini-liner, to provide more comfortable and secure protection.</p>
<p>Forte Medical</p> <p>21 Bloomsbury Square London W1CA 2NS</p> <p>www.forte-medical.com</p>	<p>Design and manufacture of innovative, right-first-time urine collection systems for accurate analysis, diagnosis and treatment. Designed by a Doctor; made in the UK.</p>

<p>Innoture</p> <p>15a Ives Street London SW3 2ND</p> <p>www.innoture.co</p>	<p>Microneedle transdermal devices for use in multiple applications within drug delivery and diagnostics.</p>
